Storm Drain Marker Program Application

Are you interested in assisting the City of Jackson with protecting its natural resources; if so, sign-up for the “Only Rain in the Drain” storm drain marketing project? The goal of this project is to raise public awareness about the dangers of dumping hazardous waste into storm drains and its contribution to water pollution, human health and aquatic life. All that is required is to volunteer and promote water pollution prevention by applying vinyl markers on storm drain tops.

Please fill out the application. Once returned, markers, adhesive, storm drain marker report form and a map will be provided for you. The markers can only be applied during dry weather with temperatures about 50 degrees. For safety reasons, adult supervision is recommended for children. When finished, please return the report form and any unused materials.

Name

Address

City

State

Zip

Daytime Phone Number

Organization Name (if applicable)

Number of Participants

Location where storm drain markers will be placed (i.e. street names, subdivision and ward)

Signature
